

There's a Story Behind This.

The Palace Theater needed a voice.  
A sound. A look...

...so they turned to L&R Productions for their new jingle plus radio and TV commercial production. It's our job to tell the Palace's story in a way that captures your interest... tickles your imagination of events to come.

We have a story of our own tell. A front porch kind of thing. After all, every story has a beginning.
